

New School Update

To commemorate our 20th year of operation, we at ABC International School are fulfilling our dream of having a custom designed preschool built in the heart of Motoazabu, Tokyo! For the last 18 months we have been working with Kowa Real Estate (the building division Nippon Steel Japan) and the architectural firm Q Torque in Tokyo and are excited to share our new school plans with you!

We have completed the Shinto ground sanctifying ceremony and we will be in our new school for September 2017!

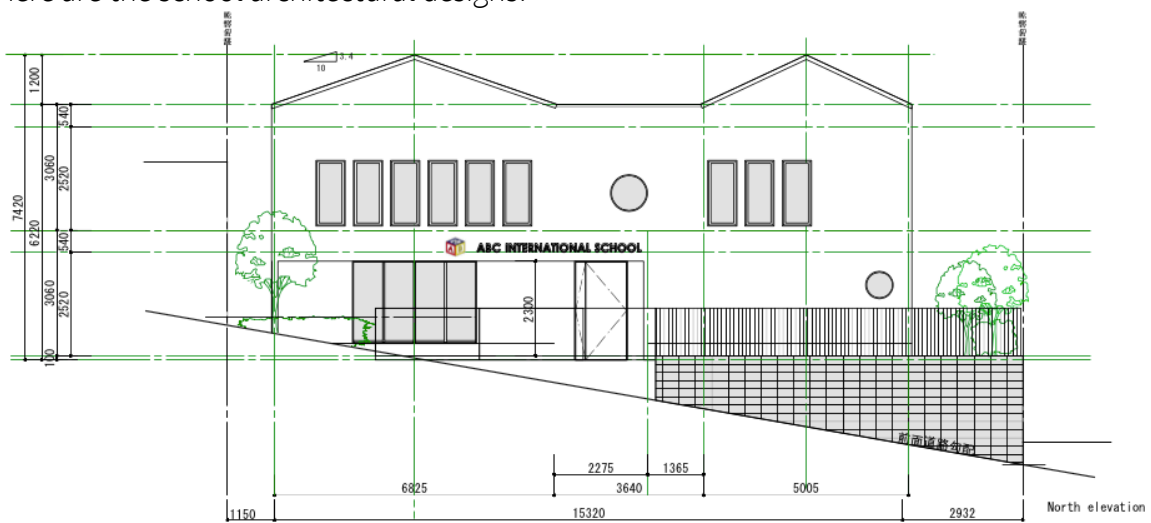

During the design process, as well as safety and child-centered design it was important to us to bring

elements of LIGHT, NATURE, CONNECTIVITY and WHIMSY to our school. Some of the features that we are most excited about are:

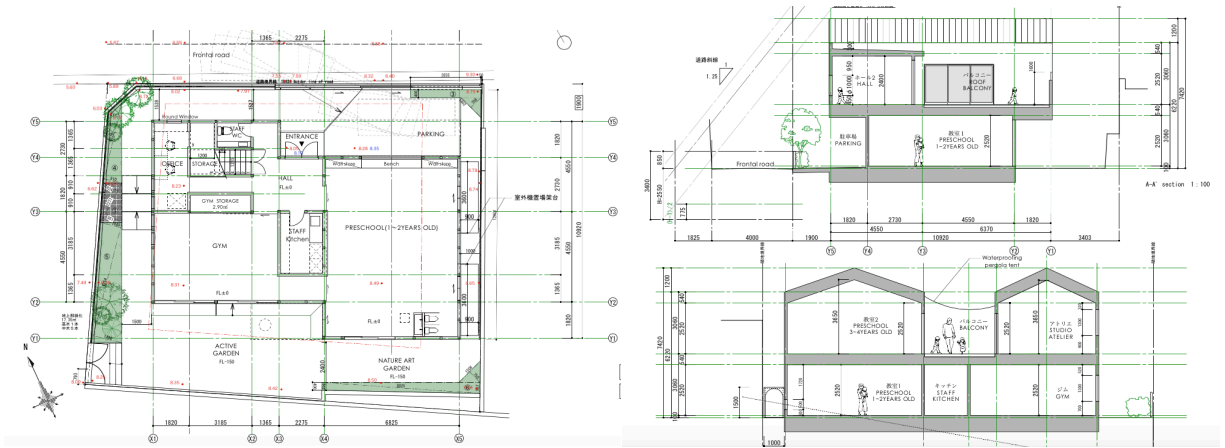

- Nature garden and a play garden for children to build gross motor skills and embrace nature.
- Lots of natural light with low windows at children level.
- Gym with a ride on ramp as an indoor/outdoor connector.
- Large open-concept Preschool and Pre-k learning environments.
- Child-sized toilets and large accessible sinks in each classroom.
- Bright, dedicated art studio/atelier that opens onto an outdoor classroom and sensory play area.
- The peek-a-boo window between the Pre-k floor and the Preschool ceiling to connect siblings and the ABC community throughout the day.
- Ride on track and tunnel for trikes and playcars.
- Side welcome gate that features a big entrance for adults and a little entrance for little people!
- Floor heating in our learning environments to provide gentle warmth for our little ones as they cozy up and play.

Here are the school architectural designs!

We are importing Natural Pod furniture & classroom lofts from Canada. This cutting edge environmentally sustainable, zero emissions, food grade furniture is not only healthy for our students and our environment, but also aesthetically beautiful! We will proudly be the first school in Japan to use these premier preschool environments. Additionally, our Hospital grade air scrubbers will continue to run daily to ensure the cleanest air for our students and teachers.

We are EXTREMELY excited and proud to share this news with you and the community that has been so supportive of ABC International School through the years. In keeping with ABC's dedication to excellence in Early Childhood Education we will be limiting enrollment numbers to continue to provide the very best environment for our students. Existing ABC students will be prioritized for a September space.

Pre-registration of new families
 Completed application forms with Deposit will be accepted at our current location from March 15th 2017. Enrollment will be awarded on a first come, first enrolled basis.

We would LOVE to share our school with YOU! Please call our school Director April for a personal school tour at our current location where we can share with you our philosophy and joyous learning environment and also share our new school plans with you! Our new school is located a short 6 minutes walking from our current location and a 4 minute walk from Nishimachi International School.
