Standard Fees & Sliding Scale Policy

Updated 6/2023

Current Tier Availability:

Tier 1

- Sliding Scale is defined as a reduced fee for services for clients paying for their sessions out-of-pocket. Fees per service are negotiated on a case-by-case basis during consultation and may be renegotiated at any point in treatment by either client or therapist.
- Sliding scale is available only for clients seeking weekly sessions (or more than one session per week).
- The Sliding Scale is broken into three tiers (see chart below) and has a limited number of availabilities. Once a tier is full, it can no longer be offered, unless an opening becomes available. Availability of a particular tier on the sliding scale cannot be guaranteed. Please contact me directly to confirm what tiers are currently available.
