DESCRIPTION: Great looking and performing 1973 Wing Red Wing Hunter. This is from the Wing/AMF years. No delamination; no cracks; limbs are straight. There are 3 small professional filled holes (see photos) on the riser (where a quiver was attached), and two small professionally filled holes on the back (see pic) where a sight was attached. No stress lines or crazing. A few scratches and scuffs. Except for the small filled holes, this is a really nice bow in exceptional condition for its age.
