

Scholarship: \$10,000 Renewable Anchor Scholarship sponsored by Huntington Ingalls Industries (\$2,500/year for 4 years)

College: University of Mary Washington
Sophomore

Major: Biochemistry

I currently go to the University of Mary Washington. I absolutely love the campus and atmosphere of the university. I am planning on to major in biochemistry and minor in math. I have a 3.52 GPA and I am also in some clubs at Mary Washington. I am on the Women's Club Soccer Team and I am in the COAR Program which involves community engagement. I still work at Chick-fil-A and I plan on working in the summer after I get back from college.
