

Header Bar | *Custom Pivot Door Enclosures*

Header bar systems allow shower doors to pivot a full 90° IN or OUT. This provides a wide area for mobility and can be configured into multiple arrangements while still have a minimal need for framework. With guidance from your glass professional, architect, designer and/or our in-house design & engineering experts, your dream shower is only steps away. These custom showers fit beautifully into new construction projects, but are equally at home in bathroom renovations. Maximize space, open up site lines, honor windows and architectural details by designing for your space, not around it.

Glass Options

- All glass is tempered; standard offering is Clear
- Pattern or Obscure glass is available
 - Bubble, Frosted, Glue Chip & Rain
- Low-Iron or Optiwhite glass is available
- Protective Coating - Shower Guard is available
- Shower Guard by Guardian Glass
 - Hard water, heat, humidity, soap and even cleaning agents can spot, discolor and corrode the surface of ordinary glass, making it look dull over time.
 - Shower Guard glass provides permanent, proven protection.
