# Walk-Roll-Run for Brain Injury Sponsorship Packages

Why should you support our organization and this event?

The Brain Injury Resource Center of Wisconsin (a registered 501C3 public charity) strives to connect people with useful, accurate information and resources in their area. If you, a family member, an employee, a neighbor, or a friend struggle with the effects of a brain injury just know that there is help.

Our volunteer staff of brain injury experts can provide useful information about programs, support groups, and connect you with services that could be helpful to you.

Brain injury can be complex and overwhelming, but we are here to help. Understand that recovery after a brain injury is a journey and no one should have to go it alone.
