

LMAO, I don't really know where to start but let's just say that there IS a higher power. Last week I prayed to Baby Zombie Jesus that Mark's Skidmarks driver, Suarez, would take a monster shit. Not that I don't like Mark, but he was starting to get way too far in front of the league. But...it's a beautiful thing! Suarez ended up with the worst finish in the league with a big brown 37-point turd! What does that do...hmmm? Last week, the gap between the Shat Marks and Sandra's 20<sup>th</sup> place ESP Racing was a daunting 81 points. Mark's Greasy Skidmarks have maintained 1<sup>st</sup> place after their ass-whoopin' but it's now only 55 points down to Kelly's 20<sup>th</sup> place Blo-Job Racing! 55 points from 1<sup>st</sup> to 20<sup>th</sup> with 13 races remaining is a fuck of a lot more like it! The distance from 5<sup>th</sup> and 1<sup>st</sup> is now only 21 points...and that ain't jack shit!

Mark's Underwear Defilers have Hamlin suiting up this week and Justin's 2<sup>nd</sup> place St. Tommy Ho's are rolling with Austin Dillon. Unfortunately, the Shat Stains look to at least hold on to their lead as Scott's 3<sup>rd</sup> place Barn Yard Bitches are starting the soon to be ex-Hendrick driver, Kasey Kahne; Donna's tied-for-4<sup>th</sup>-place Denny's Douches are gonna get "Dinged"; and, Jim & Judy's 4<sup>th</sup> place Puppy Ass Lickers are rolling with Ricky Stinkhouse. I'm guess' that The Skids are gonna hold on to 1<sup>st</sup> after this week but...if Denny is more worried about his brand-spankin' new baby than he is racin' we might have a new leader! Oh, what you might not know is that Denny and his Jiz Bag are NOT married! Why would they be? This is a new world and all his girlfriend (Jordan Fish) knows is that she's in for a big payday. Yaaa!

I'm not gonna spend a lot of time on last week's boring fuckin' Michigan race. Kyle Larson won his 3<sup>rd</sup> race of the season and Truex scored a 2<sup>nd</sup> and a stage point to increase his lead over the rest of the lame asses to an insurmountable 17 Bonus Points. That's not a bad thing. The new Chase setup is made to reward the drivers that did great in the regular season and NOT fuck them if an engine blows during the Chase rounds. Truex is now a lock to be in the final-4!

I've gotta mention one of our "best" teams in the league, Pete's 19<sup>th</sup> place "It's Too Hard". Now, I can't give him too much shit because he has actually been a racer. Granted, he was a racer back when they were running two-horse chariots around a dirt track. Have you ever watched Ben-Hur? That's what Pete used to do...however, he was in much better shape. Those fuckin' horses might be strong...But, WTF, not that strong!

Another short night 'cause I'm watching qualifying at the world's fastest half mile. Bristol is only a 1/2-mile track and it's fun as shit to watch. It doesn't get any better than a Saturday night at the Bullring! THE JIMMIE won the last race in April and the August race last year was won by Kevin Harvick. Anything's possible, but if you don't qualify in the top-10 you're fucked!

Gentlemen, start your engines!
