

*faith for*  
**Fallon**  
*Benefit*

**Saturday, May 16, 2015**

**2:00pm-midnight**

**Bartelso Park, Bartelso, IL**

On January 30, 2015 Fallon was diagnosed with SIFD Syndrome. SIFD Syndrome is a genetic disorder that has been diagnosed less than 20 times worldwide. In the next few months, Fallon will undergo chemotherapy to wipe out her immune system before receiving a bone marrow transplant. Join us for a benefit in honor of little Miss Fallon and her parents Kevin and Katie Schlautman.
