Ballet & Pointe

Ballet is one of the oldest forms of classical dance, based on techniques that have been developed over centuries. Ballet is the technical base for many styles of dance, as many other dance genres are based on ballet technique. Ballet uses music in combination with dance to tell stories. Dancers wishing to take pointe must be approved first by our ballet teacher.

**Pointe and pre-pointe dancers must be invited to take the class, and have their ballet skills evaluated before they may take the class.*

Jazz

Tap

Tap dance is the form of dance where rhythm is created by tapping the heels and toes of a dancer's shoes in various combinations and patterns.

Modern

Modern dance originated as a rebellion against classical ballet. The movement includes parallel lines and use of the body's natural movement, as well as floor work. Modern has no boundaries, and this style of dance centers on a dancer's own interpretation of the movement. There are various modern techniques that were created by the pioneers in the style.

Stretch & Strength is a class that focuses on stretching the body to be more flexible for dance. The class also focuses on strengthening exercises specific to dance training.
