MAY DAYS ARE BLOOMING AHEAD

I KNOW WE ARE ALL READY TO RUN A MUCK FROM HAVING "CABIN FEVER" FROM A CORONA VIRUS MELTDOWN!!!

Here, we have been safe and sound. Taking care of in a whole new rendition of our daily routines. I can tell you there is a light on the horizon!!

Slowly and surely the PA Governor is re-opening the state following a 3 color code system. We are following the State CDC & Health Department Recommendation of keeping the current safety measures in place for an extra 2-3 weeks. This means we should be close to back to normal daily routines by the end of MAY! YEAH!

How Precious Our Daily Grind

The staff are EXTRA ORDINARY; How do I mean? Let us count the ways of their extreme dedication.

Dietary Department:

The staff are going room to room to provide 32 oz waters to insure you have no dehydration issues. They are typing up and printing out daily menus with many options to let you choose from. Then they help deliver meals with the aides...

Aides & Med-Techs Department:

What are they not doing?? Not only are they still getting all our terrific residents up, cleaned, dressed teeth in, hair combed and seated in a chair. Then they are helping to assist some folks with eating, delivering meals to rooms and then collecting the trash from your meals afterwards. Speaking trash...

Housekeeping & Laundry Department:

The daily grind of the picking up extra trash, cleaning up the food and drink areas from where residents are eating in their rooms. They are also doing extra laundry for many of the residents during

this quarantine condition; to take some of the burden off our terrific families. More trash & more laundry leads to more cleaning services for the residents' that is out of their normal grind...

Maintenance Department:

Everyday there are still rooms that need repairs, bulbs, painting and more. Also, our deliveries are still a functioning part of Vendor life and packages to put away.

Administration & Nursing:

What haven't they done for us?? Making sure that ALL PROTOCOLS are followed. Making sure we ALL STAY SAFE. Helping feed, serve, deliver, and helping to keep the residents on the right path. Protecting Entry Into The Front Door & Keeping Families Posted.

THE ENTIRE STAFF HERE COME IN FOR OUR RESIDENTS; BEYOND THE THOUGHT OF THEIR OWN SAFETY & KEEPING THEIR OWN FAMILIES SAFE AS WELL. HOW LUCKY ARE WE!!!

Then please meet Wallace. A very polite and up to the task server in our dietary department. He has already blossomed quickly into that position. Just like his pal and ours... Larry!
