Exquisite Fiberglass Entry Doors

Welcome Home

Signature Series

Natural Fiberglass Grains

The beauty of natural wood, improved.

HGI's Signature Door Series features a patented grain technology process that authentically replicates any natural surface. The door process begins by hand, selecting the most desirable wood pieces which are then used to build a real wood door. A silicone casting accurately picks up the finest details of the wood grain which are transferred to the door mold using our Nickel Vapor Deposition Technology. The resulting mold is utilized to produce the fiberglass skin of each Signature Series door. The result is a breathtaking reproduction with random grain depths and all the natural characteristics of natural wood, but free from the warping, bowing, delamination and moisture issues that plague real wood doors. Born from real wood but vastly improved upon by state-of-the-art technology. The best of both worlds: HGI Signature Series Doors.

Signature Series

Exclusive Features

HGI Signature Series frames and simulated divided lites are also produced in durable fiberglass and provide a perfect match to our Signature Series doors. These frames & lites provide unsurpassed strength and durability and will not warp or twist under high temperature variations. Like all HGI Signature Door slabs, they provide all the exquisite beauty of wood without any of the headaches.

Why a Signature fiberglass frame?

- Perfect match to Signature doors
- Perfect stain match to Signature doors
- Equal expansion and contraction to fiberglass doors during extreme temperature fluctuations
- Fiberglass frames are more rigid than competitive plastic frames ensuring a tight weather seal to the door
- Fiberglass will not warp or twist under extreme temperatures
- Extruded silicone seal eliminates the need for unsightly caulking

Exclusive Adjustable Frame

Every Signature Series Entry Door is equipped with HGI's exclusive, patented adjustable hinge plate system. The door hinge is adjustable both vertically and horizontally to deliver the perfect fit on the door frame. The result is superior ease of operation and an industry leading weatherseal against the elements. The bottom line: **increased energy savings.**

Lifetime & Beyond Warranty

Like the Amish artisans that live and work near the Home Guard factory in Grabill, Indiana, we too craft each door one at a time. We are proud to offer a Lifetime & Beyond Limited Warranty on All Home Guard Entry Doors. Our exclusive transferable warranty gives peace-of-mind protection against warping, delamination and twisting of door slab for as long as you own the door...and beyond. Please see our Warranty Card for details.
