Sides back and bottom should be assembled as shown with wood glue and screws. Top can be attached with glue and finishing nails.
 Note: Front bottom edge of Bottom should be rounded with a file or sander.

Assembly #1 Wall Assembly

Top	45 11/16 x 4 5/8 x 1
Bottom	45 11/16 x 5 1/2 x 1
Back	45 11/16 x 6 1/4 x 1
Sides	3 3/4 x 6 1/4 x 1

Assembly #2 Door Assembly

Front	46 x 7 1/4 x 1
Sides	5 1/2 x 8 x 1

Assemble sides and front as shown with wood glue and screws. Use cabinet hinges to attach both assemblies.

Once both the wall and front assembly are attached molding can be used to clad the front and sides of the floating shelf.

We recommend flat head torque screws as shown. Use a stud finder to find location of wood wall studs. Then attach unit to wall stud with screw. Use a level to adjust before adding additional screws to minimum of three studs.

The front assembly folds away leaving display items in place and allowing easy access to firearm. Please note this is not a secure gun safe. Please use trigger guards and proper gun precautions.
