The best choice for IFS...  
**Absolutely**

Absolute ERP Ltd  
Second Floor, Regent House  
65 Rodney Road, Cheltenham  
GL50 1HX

- **Basic IFS Data Management**

Absolute ERP can implement a stable, secure, high performing infrastructure for your IFS application - assisting you to make effective strategic decisions to support your business with backup and restore strategies, policies and procedures. We can tune your database and SQL scripts to make them more efficient to make better use of your expensive hardware resources.

We are able to help you to patch, upgrade and monitor your databases for performance and stability. We can assist you in the design and implementation of security permission sets. With our extensive experience in the IFS administration tool and IFS Solution Manager, we can support your IT teams to meet both near term business objectives and anticipated future needs by providing technical guidance in regards to the implementation of highly advanced technological solutions.

- **IFS Data Improvement Strategies and Data Cleansing**

Absolute ERP will:

- Extract data from existing or previous databases, clean and migrate the data to IFS.
- Identify relevant organization, process and technology best practices relating to data management.
- Identify key gaps between current state supporting capabilities and relevant best practices.
- Conduct business stakeholder assessments to understand high-level data needs as well as current analytics, data and issues.
- Conduct interviews with stakeholders, business leaders, Business Domain Specialists and enterprise data architecture groups to gather high-level future data and analytic requirements.

- **IFS Process and System Documentation**

Absolute ERP can take your un-documented IFS processes or help you create new processes and document processes and prepare/generate presentations/reports as required. A good set of process documentation can be easily integrated into training materials and delivered to the end users via your company intranet.

- **Barcoding/RFID Implementation and support**

Information is one of your most valuable assets - protect your organization by ensuring data accuracy. Barcode/RFID systems have a demonstrated payback period of six to eighteen months, and they provide the highest level of reliability. Barcode systems create value not only by saving time, but also by preventing costly errors. Absolute ERP can provide the hardware, software, training and support needed to help you track your inventory and reduce the number of stock-outs and redundant inventory within your facility by implementing a fully integrated solutions for barcode data collection, bar code printing, mobile computing, RFID and other related technologies.
