**JOANNE C. PHILLIPS**

The Arizona Education Cadre, LLC provides training, mentoring, consultation and support to schools and educational agencies, both public and private. Special education laws, regulations and mandates make it critical that educators maintain cutting edge information. Our students with disabilities deserve highly trained professionals to meet their needs and help them learn.

Now is the time to prepare for next year by using training opportunities to establish effective programs and practices to work with students with autism in the regular education and special education classroom settings.

**AUTISM**, an extremely complex neurological disorder, occurs in 1 out of 100 children, but educators often have no tools to teach these challenging students. Schools and parents experience frustration and failure because of their inability to understand and teach children with autism; they don't know how to reach them.

This three day seminar will increase understanding of children with autism and provide suggestions for classroom set-up, teaching interventions and behavior management strategies to enable greater success in school.
