The National Association of Job Training Assistance (NAJA) offers presentations by professionals from the U.S. Department of Labor/Employment & Training Administration and other federal agencies that provide updates on workforce investment act policies and procedures; and by volunteer presenters who have knowledge and experience in their field. These presenters share information and best practices with attendees from WIOA offices and Community Colleges located throughout the United States.

NAJA is a non-profit association that sponsors annual conferences for professional development of government and non-profit workforce development professionals. Since 1982, NAJA has conducted regional workshops and national conferences that are designed to enhance the operations and performance of administrators, middle management and staff personnel of local and state agencies. These workforce development professionals administer employment and training programs funded under the workforce innovation and opportunities act and other federal and state funds.
