BERKO QMARK RAYCHEM PRODUCTS IN LOCAL STOCK

Ideal for any industrial setting, this heater goes right to work! Its powerful output capacity makes it suitable for factories, warehouses, garages, stairwells, loading docks and more. With a wide range of control kits, this adaptable heater is easily installed and ready right out of the box.

Fan-forced electric wall heaters deliver the right amount of heat right where you need it and look good while doing it. Perfect for residential and commercial spaces, these heaters go equally well in entryways, dens and basements as well as stairwells, vestibules and lobbies.

Ceiling Heat: CDF/FFCH, EFF/QFF

Need unobtrusive comfort, these heaters provide powerful warmth to your cold spaces in a recessed enclosure that fits right in the ceiling. Optional relays enable you to connect this ceiling heater to your building management system for precise heating when and where you need it.

Residential Baseboard: 2500 (2' to 8' all voltages and acc.)

Stay warm and cozy all winter long with residential baseboard heaters. Efficient, compact and reliable heating that's strong enough to warm all your cold spots. Install them in bedrooms, living rooms, kitchens and bathrooms as well as commercial conference rooms, hallways, lobbies and waiting rooms.

Thermostats: MS/MD and M600 models

Control your comfort with an easy and convenient QMark thermostat. Compatible with nearly all electric heaters, this thermostat will enable you to save valuable heating dollars while providing comfortable heat with precise control.
