

Hello Fifth Graders!

FWES Science fair is on Wednesday, March 7, 2018 from 6:30 to 8:00 PM. As in the past years, the fifth-grade projects will be judged for first, second and third place. Use of the scientific method will be a strong consideration for the judging, as well as creativity, originality and neatness.

We encourage parental involvement, but the ideas and vast majority of the work should be the student's. Additionally, anyone who enters a project is automatically entered into a raffle for a prize! Don't forget you can work in groups or with a partner. We can't wait to see what amazing projects we will have this year!!

Sign up using entry forms in Friday folder or online entry form at: <http://bit.ly/2DKvua5>
