

theSiteHelper

How it Works

Complimentary 20 minute initial consultation

YOUR COSTS

Purchase a name for your website (a domain name) Prices will vary depending on where you decide to purchase and the specials currently offered. For example as of 8/2016: GoDaddy starting at \$5.99/mo for domain, email, and website hosting

Purchase hosting for your website.

There is also a small menu of other things to consider purchasing. For example your hosting site might have items like Search Engine Optimization (SEO), or private registration. We can discuss the best fit for you.

theSiteHelper is \$60/hour

MY SERVICES

Pretty much whatever level of support and direction you might need.

Creative input.

Tech support of course! This can range from problem solving for little glitches, to putting your website together for you and getting it published, without you needing to do ANYTHING techie.
