**Education:** 1982-University of Pittsburgh -BA dual major Business - Speech Rhetoric 1991 - Juris Doctorate Duquesne University - evening division

**Qualifications:** I have 28 years of hands on trial and litigation work. This experience uniquely qualifies me. The cases I have handled are the cases that the Superior Court hears and rules on. I have successfully argued before the Superior Court and the Supreme Court of Pennsylvania. I am the only candidate to be AV Preeminent Peer Review Rated (Martindale Hubble) this is a blind rating and not many attorneys have or get this rating. I am a member of the Pa Assoc of Justice where I serve on their Amicus Committee

**Municipality:** Sewickley Heights, Allegheny County Pennsylvania

**Questions:**

**Q:** *What is the most important quality in a judge?*

**A:** A Judge should exhibit the following aspects of proper judicial temperament: Patience, open-mindedness, courtesy, tact, courage, punctuality, firmness, understanding, compassion, humility and common sense. I have appeared before Judges thousands of times and I find these qualities to be the most important. One of these qualities without the other is not enough. A judge must have these 11 qualities to render fair and impartial decisions for the citizens (litigants/parties) before them.

**Q:** *As a member of the judiciary, what can you do on and off the bench to ensure that all Pennsylvanians have access to justice?*

**A:** On the bench I will always treat those before me with dignity and respect. If the person is pro-se I will go out of my way to understand the issue that they are raising before me. I will be permitted to teach and speak at seminars about the need for all persons to have access to justice. I will continue to volunteer for Kids Voice and organization that raises money and sets up the infrastructural for children to be represented in court.

**Q:** *Under what circumstances would you recuse or have you recused yourself from a case?*

**A:** I would recuse myself if any question of impartiality arose. I have in my practice of law turned down representing clients whom I would have had a conflict of interest in representing. A judge must at all times be free from any external influence.

**Questions:**

**Q:** *What is the most important quality in a judge?*

**A:** Impartiality and work ethic.

**Q:** *As a member of the judiciary, what can you do on and off the bench to ensure that all Pennsylvanians have access to justice?*

**A:** All judges must make sure that every participant in the legal system is aware of their rights and responsibilities to the court and afforded quality representation in each step of the proceedings. Measures must be taken to inform all participants of the various services available to obtain quality representation and every judge must endeavor to make sure that all Pennsylvanians participating in the judicial system are afforded quality representation.

**Q:** *Under what circumstances would you recuse or have you recused yourself from a case?*

**A:** I would recuse in any case where I feel I could not be fair and impartial to either side of a dispute or where my impartiality may fairly be questioned. I have recused in instances where there is an actual or perceived conflict of interest in order to preserve the integrity of the judicial system and the appearance of impartiality and fairness to participants and the public.

### Questions:

**Q:** *What is the most important quality in a judge?*

**A:** Temperament is the most important quality in a judge. Parties and litigants in our courts must be heard and treated respectfully, and a judge's temperament is critical to a party's belief that he/she had their day in court by being heard and treated respectfully. People are more likely to accept a decision, even if they disagree with it, if they are treated fairly. A judge must be able to listen, without expressing exasperation, frustration, annoyance or other behaviors that may reflect bias, and raise concerns about prejudice and injustice in the justice system. A good judicial temperament helps to improve satisfaction with the courts, and perceptions about the courts.

**Q:** *As a member of the judiciary, what can you do on and off the bench to ensure that all Pennsylvanians have access to justice?*

**A:** Implicit bias affects whether people have access to justice. The Interbranch Commission reported that people have experienced bias in our courts based on race, gender, and gender identity or expression. Implicit bias is prejudice that unconsciously affects decisions and beliefs, and it is cited as a factor in disparate treatment in our judicial system. We must recognize and confront our implicit biases, and this has to become a practice in order to effectuate change in our judicial system. On the bench, I will rigorously question the basis for decisions, and challenge disparities in treatment to eliminate implicit bias and ensure access to justice for all Pennsylvanians. Off the bench, I will continuously challenge myself to recognize and confront my own implicit biases that may impede access to justice. Justice and equality demand that people be treated fairly under the law; therefore, judges must be compelled to act with unbiased humanity.

**Q:** *Under what circumstances would you recuse or have you recused yourself from a case?*

**A:** I will abide by the judicial code which requires recusal or disqualification under specific enumerated circumstances, or when my impartiality might reasonably be questioned.
