

9/30/21

Good morning!

It was so good to be at the re-union again this year. I really appreciate the ability to be with family again.

While at the re-union I believe we affirmed our links to your links as Robert and I discussed. Back at Thomas we come down from one son and you come down from another son. It has taken me a long time to validate our folks and I sincerely hope all my information is correct. There was another couple there with a computer and as we compared notes I thought I saw something different in his. However when I got home and did further research I saw where he had used the Hyatt parents as parents of the spouses in a couple places and other places where the "parent" would have only been about 60s old so felt could not be true. Mine is definitely open for growth and I appreciate feedback if you see something that could be erroneous.

Robert asked that I send a copy of mine in order for it to be incorporated into what you have compiled so I have printed and am sending. If you have problems with any of it feel free to email or call me. We did the DNA link several years ago by my Uncle - Albert Marvin Hyatt so you can see that in your DNA records.

Thanks again and I look forward to more conversations and get togethers!
