Crush the candy canes into small bits*. Add the mix, vanilla and half of the candy canes into the Emery Thompson counter top batch freezer. Freeze at 180 RPM's. Freezing time will be about 8 minutes. At the six minute mark, add the second half of the candy cane bits.

*Make the candy cane pieces small enough as to not be a choking risk when eaten.

**The traditional red and white candy canes will turn your ice cream a pale pink. If you use the red and green candy canes your ice cream will have a grey cast to it.
