

“In today’s fast-paced business environment, efficient and expedient solutions to systems, data and network issues are critical. Being digital saves time and money”

Gorilladox™ is a Solution Provider for your Food Safety System Programs (Supports HARPC/HACCP, etc.).

Gorilladox (GD) is your answer to preparing/sustaining systems for GFSI and Regulatory Requirements. Our market proven software keeps your company on top of Food Safety Systems throughout the year, thus audit ready. Being paperless and binder free allows companies to stay organized and ensure your company is sustaining programs while saving time and money.

SOFTWARE DESCRIPTION

GDoX is a Cloud based software that brings all the required Food Safety Systems into one easy-to-use software. Our system has a proven track record in the market and has helped over hundreds of users to successfully pass GSFI Certification Audits. The System’s main dashboard provides real time compliance status along with preventative tools to lower your facility’s risk of a food safety facility breakdown. Optional pre seeded templates for GFSI/HACCP Level Systems allow plants to save time and money from program writing, and allowing more time on floor implementation.

CONTINUOUS SUPPORT

GFSC Group, Inc. is committed to helping all its clients with ongoing support for your system implementation. Our company owner has over 20 years managing Food Manufacturing Facilities and knows what support is needed to make your life easier by saving time and money. Our Food Safety Consultants perform optional offsite audits to help keep things on track and ensure your systems are working and effective.

*"The Gorilladox software is the most useful tool I have ever seen for document control. It is very user friendly and has many useful functions, including training, verification, audits, MSDS, corrective action, etc."
-Customer*

PRICING STRUCTURE

GD has a competitive pricing structure along with offering more than the completion.

1st year payment of \$15,000 which includes install, setup, and training.

Annual Renewal: \$5,000
