Capabilities

RotoFlo™ RWP010 10" Wellpoint Pump

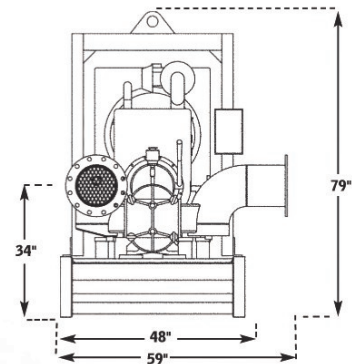

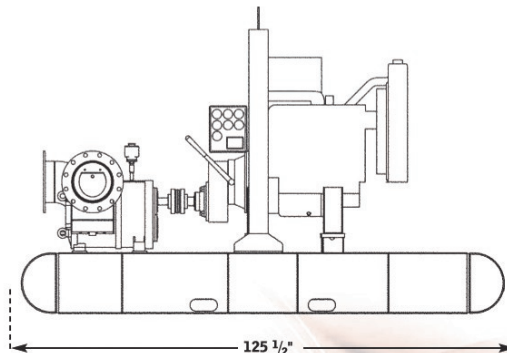

MWI's RotoFlo is the perfect pump for construction dewatering, combining reliability, low operating costs, flexibility, and the best performance of any wellpoint pump on the market.

Whether you are using a wellpoint or sock system, the air/water handling capabilities of the RotoFlo will work trouble-free and with minimum use of fuel. The pump is designed to elimi-

nate the need for complicated vacuum priming, floats, and air/water separation systems, which are known for failures. When you combine this pump with WMS's 24/7 service plans, you are guaranteed a hassle-free experience. Contact us about using this pump today!

Features

- High performance (450 GPM & 210 FT. TDH)
- Dry running mechanical seals
