

SUMBA builds bridges

Shropshire Union Middlewich Branch Adopters (SUMBA) have had a busy time improving the Brickyard Bridge and Sykes Hollow picnic area.

A 19-strong work party dug out and re-gritted the bridge's steps and repaired handrails and posts. Rotten horizontal rails were also renewed. The top row on both sides was renewed and SUMBA plans to complete the second and third rows this month, with the project completed in August.

In the Sykes Hollow five picnic tables and barbecues, signage and totem posts were given an annual re-paint. Blackcurrant, redcurrant and some rhubarb bushes were also planted.
