This year the Presentation™ II sets the styling for the 90's for all custom take-downs. Designed with the true hunting enthusiast in mind, there is no better value anywhere in a custom built take-down recurve.

Every detail of the original P-II has been considered in the new P-II. New limbs and handles are interchangeable with most examples of the original equipment. The handle has been slimmed down for the 90's, with low cut radius and crown for accurate instinctive shooting.
