

Smithtown SEPTA

Seeing the Ability in EVERY Child

**Please Join Us
Tuesday, November 13, at 7:00 PM**

**Meeting to be held at NYA Administrative Building at
26 New York Avenue
Smithtown, NY 11787
Room 222A**

Increasing Social Skills with Your Child

Please join us for a presentation discussing various ways you can help increase social skills with your child. **Lauren Marra**, a NY State Licensed Behavior Analyst, and Co-Founder of Marra & Glick Applied Behavior Analysts, will speak about different ways we can help our children gain new skills, increase social interactions, and also discuss social challenges related to different age ranges and abilities. Materials will be given out that can be used to help generalize skills across many areas of social interactions.

Please join us after the presentation for our discussion circle. This is a great opportunity to learn from, share and support each other. Hope to see you there!
