## **DILPREET JAMMU**

### **Principal and Chief Executive Officer**

Since 1987, Mr. Jammu has held senior business, technology and investment positions for several companies including, Jones Intercable, AT&T, Bell Northern Research, BCI Inc. and Nortel Networks After nearly two decades of international and domestic strategic business development, operations and investment experience in the telecommunications, cable and new technology sectors, Mr. Jammu turned his attention to angel investment.

Mr. Jammu's experience in initiating and managing Corporate and private investments in excess of \$1B, participating in \$2B of mergers, acquisitions, asset sales and purchases (including all aspects of the process from initiating relationships to conducting due diligence, to implementing exit strategies), integrating over \$800M in acquired operations and identifying and developing new business opportunities in excess of \$100M, uniquely qualifies Mr. Jammu to lead Sona Capital's effort to become a primer player in the emerging growth and mid-cap markets.

Mr. Jammu's academic areas include a Bachelors Degree in physics and in electrical engineering from the University of Prince Edward Island and the University New Brunswick respectively and Executive Education at Wharton School of Business.
