

2019 Peaks 'n Pines Quilt Challenge

My Favorite Things

This year's quilt challenge is all about YOU! We all make many quilts but most of them are for all the wonderful people in our lives. This challenge is to make a quilt that is uniquely you. This quilt will be one that your family will cherish long after you are gone because it will be all of your favorite things!

Each month, January through May, you will add another of your favorite things to the quilt of your design. You can make the entire quilt as one block with all of your favorite things included in that block; you could make your quilt like a sampler with your favorite things as a separate block; or you could make your quilt like a game board with all of your favorite things all around the board. Use your imagination to design your quilt because each month I will give you suggestions of what to include in that quilt. Your favorite things might include your favorite flowers, your favorite vacations, your favorite sports, your favorite pets or animals, or your hobbies or things you collect, all done in your favorite color.

Your quilt must not be bigger than 60"x 60" with no minimum size. It should be fun whether you're a beginner or advanced quilter. You can make the quilt as easy or as hard as you like because you are to challenge yourself to come up with ideas to express your favorite things in fabric.

We will display the finished quilts at our annual quilt show in July. I hope you all will decide to participate in this challenge. Express yourself!
