

## ENERGETIC MEDICINE AND THE SCIO IN DEPTH

Every year in October, the QX World Conference offers you an incomparable opportunity to professionally grow as a Biofeedback therapist. The QX World Conference brings together hundreds of Biofeedback experts from all over the globe, representing every aspect of Complementary Medicine. The conference gives you a few comprehensive days of mind opening lectures with industry experts, the chance to connect with fellow Biofeedback practitioners and an amazing experience in the hometown of the SCIO device!

Created and manufactured by Mandelay Kft. ,  
commonly called the Budapest Home Office (BHO)

CE 1008

## THE CLASP 32 SOFTWARE. HEALTHY PROGRAMMING.

The Clasp 32 is the operating software behind the SCIO, probably the largest medical software in the energetic medicine world today. With every new version, the software is enlarged and improved to offer you, the Biofeedback specialist, the best means to deal with your clients' electrical stress. Some special SCIO applications include:

**ELECTRO-ACUPUNCTURE:** Designed to measure bioresonance and electrically balance the acupuncture points with harmonic resonant frequencies

**MERIDIAN SYSTEM CORRECTION:** Stimulates and adjusts the meridian system utilizing a frequency applied technique.

**SCALAR AUTO PROGRAM:** Balances the subtle energy centers in the being, known as the Chakra system.

**TRIVECTOR PROGRAM:** A deep balancing protocol designed for stabilizing the trivector (amperage, voltage, resistance) and increasing the patient's energy levels

**MUSCULAR RE-EDUCATION FOR ATHLETES:** Includes several programs designed for muscular re-education for sport injuries and muscular enhancement for sportsmen

**MUSCULAR RE-EDUCATION FOR INJURED MUSCLES:** Muscular re-education for injured muscles and pain reduction through MENS (Microcurrent Transcutaneous Electrical Nerve Stimulation)

**NLP (Neuro-Linguistic-Programming):** Designed for stress reduction, emotional counseling and stress management on a deep level

**EMG, EEG, ECG, GSR BIOFEEDBACK CHART:** Electromyography biofeedback, simple electroencephalography biofeedback, three-pole electrocardiography biofeedback and galvanic skin response applications to enhance your biofeedback therapy

**HYPER-REACTANT REACTIVITY TRAINING:** Records and balances the reactivity scores to several items in the Matrix

Control no. 200044-D

## The SCIO System

## Universal Electrophysiological Biofeedback System

*Bringing You Tomorrow's  
Medicine Today*

The SCIO (Scientific Consciousness Interface Operations System) is a Universal Electrophysiological Biofeedback System. It coordinates a complex electro-modal, biofeedback program with computer software in order to gather bioenergetic information of a client's subconscious. The information is gathered from the body through electrodes in head and limb straps providing an accurate and precise picture of the client's general status. This information is selected and listed by the SCIO in order of the highest reaction and the stressors are analyzed in the course of a stress management session.

#### HOW DOES THE SCIO WORK?

The SCIO is designed to correct the manifestation of stress and/or electro-stress patterns within the individual at the physiological level. The device works on the theory that stress disrupts the inherent electromagnetic frequencies at which the body's cells resonate and that by returning these frequencies to their natural state, the stress and any subsequent illness that occurred are occurring or may be occurring because of the disruption may be reduced.

#### WHY THE SCIO?

The SCIO Universal Electrophysiological Biofeedback System is one of the most sophisticated tools in the world of biofeedback today. The SCIO combines all known applications of Biofeedback and a unique medical software, allowing you to provide your client with the best complementary care.

The SCIO measures the basic electrical factors of the body and produces feedback that can be audio, visual or haptic (the haptic response means electro-stimulating the skin to reduce electro-stress and help prompt relaxation). Healthy tissue will respond in a predictable way, while unhealthy tissues will conduct pulses differently, producing different readings.

Traumatized, inflamed or degenerative tissue all produce different readings compared to the client's baseline norm. Thus in the cybernetic loop, the SCIO measures the body electric and produces feedback for wound healing, pain reduction, relaxation and stress reduction through electrical stimulation.

The SCIO is indicated for use as a Biofeedback system, with the following functions:

- Stress Reduction and Lifestyle Questionnaire.
- Simple EEG (electroencephalography) biofeedback brain wave stress reduction.
- Three-pole ECG (electrocardiography) simple heart awareness and biofeedback stress reduction.
- EMG (electromyography) biofeedback for simple re-education of muscles.
- GSR (galvanic skin response) biofeedback and TVEP (transcutaneous voltammetric evoked potential) biofeedback.
- Microcurrent Transcutaneous Electro Nerval Stimulation (MENS) for pain reduction in the cybernetic biofeedback loop.
- Trauma and/or wound healing in the voltammetric loop
- Global Voltammetric Charge Stability in the biofeedback loop

#### WHAT CAN THE SCIO DO?

This unique combination of Biofeedback applications and micro-current stimulation has proven positive effects in the following areas:

- the detection of stress and reduction of stress.
- the muscular re-education from injury, muscle weakness or dystonia.
- pain reduction through MENS.
- the healing of trauma and/or wounds.
- the rectification of charged stability imbalance and redox potential.

#### INTERNET SOLUTIONS

Find out everything you need to know about your device on the official Mandelay Kft. webpage. Designed to meet the needs of our international market, we offer you a multi-language website where you can activate your device 24/7, download the latest version of the software and find out the most current news about your device. The technical support section has all the information about how to download, install and activate your software, through easy video demonstrations. Also, you can join the official Discussion Group to share your experience and get in touch with other Biofeedback colleagues. On [www.qxsubspace.com](http://www.qxsubspace.com) everything you need is just a click away!
