What does Foster With Intent to Adopt (FWITA) mean? This is the quickest means to find your perfect pet. All incoming dogs/cats are placed in foster homes. Most foster homes become the animal's Forever Home. We attempt to place a foster dog/cat within the guidelines you have designated. Foster families have a right of first refusal if another family is interested in adopting. However, the choice to permanently adopt the dog/cat is your decision. If you decide the dog/cat you are fostering would be better placed with a different family, we abide by your wishes.

***For people interested in FOSTERING:** Our foster homes are the most important link in the Rescue chain. If your application is approved, you will be entered into our database for families interested in fostering. The Foster Home Team will use the information you provided to assist us in placing a dog/cat in your home. Someone on the Foster Home Team will contact you when a dog/cat needs a foster home.*

APPROVED-TO-FOSTER HOMES MAY INDEED ADOPT THEIR FOSTER DOG/CAT! Thank you so much for offering to open your home to give a rescued pup/kitty a second chance.

***For people interested in ADOPTING:** All those interested in adoption must first be Fosters with Intent to Adopt (FWITA's). We will place the animal in your home for the 48 hour "trial period", and if it appears to be the perfect pet for you, we will then make the adoption permanent.*

E-mailing your application is the preferred and quickest way to submit your application. After completion, e-mail to cooperschance@yahoo.com or info@cooperschance.org. Adoption Coordinator will contact you once you are approved to schedule meet.
