NEW Rechargeable Simplicity Motorization

Our battery-operated Simplicity motorization is an economical RF system available across our most popular product categories. Shades operate by remote control (there's no manual button) and the batteries are rechargeable for extra cost savings and convenience. Simply put, it's an affordable option for average-sized windows.

POWER IN NUMBERS

NEW PowerWand™ Motorization

The wand and pendant operation of PowerWand™ lifts and lowers shades with the touch of a button. It's available across multiple product lines so you can offer this Certified Best for Kids option to a wide variety of customers, including the budget-savvy consumer. Not only is PowerWand affordable, it's rechargeable, too! Available in white or black.
