

# **Dream**

**Imagine this  
A place so kind  
A universe  
Within your mind  
I've been before  
Beyond the door  
Transcending  
Space and time**

**This world will pose  
No mystery  
No questions of  
Infinity  
No stone unturned  
No great surprise  
To see just close your eyes**

**And dream a dream of me  
While I dream a dream of you  
So dream a dream of me  
And I'll dream a dream of you**

**We'll dance on clouds  
And laugh aloud  
Do somersaults  
And hang around  
Utopia  
Opens her gates  
Hold me  
And I'll take you there**

**So now my friend  
Our journey's nigh  
Until the next sunrise  
I whisper soft  
This lullaby  
Embrace  
And say goodnight**

**And dream a dream of me  
While I dream a dream of you  
So dream a dream of me  
And I'll dream a dream of you**
