Determination of award

Emergency Financial Aid grant notifications were distributed to all students enrolled in programs who could potentially be eligible for a grant; via SMART text message and email notification. The school established the following 7 potential areas of need.

1. Food expenses
2. Housing Expenses
3. Expenses related to course materials to attend school
4. Responsible for healthcare costs
5. Responsible for child care expenses
6. Reduced hours and/or loss of job
7. Technology expenses

If a student was impacted by the disruption of campus operations due to the coronavirus and deemed eligible, per the eligibility requirements they were classified as eligible. Award amounts were determined by dividing the grant amount received by the number of students eligible, resulting in full utilization of this calculation, each eligible student was designated an award amount of \$225.-\$1,576. The students Expected Family Contribution (EFC) from the Free Application for Federal Student Aid (FAFSA) will also be reviewed when determining the HEERF award.

Relief grant funds are held in a separate account apart from all normal school operation funds. Unused grant funds will be allocated to incoming students within the next several months as no longer than the end of year with no co-mingling of funds coming from any other area of school. These funds will be in a separate Emergency Relief Fund account.
