

2023 EDITION

**A History of
Girls Basketball Statistics
(Team & Individual)**

for MINNEAPOLIS HIGH SCHOOL

Accumulated by Dale Leech

Published on the website:

“Minneapolis Kansas Sports Hall of Fame”

FOREWARD BY DALE LEECH

Enclosed please find the 2023 Edition of a History of Girls Basketball Statistics (Team & Individual) for Minneapolis High School. College/University and Professional Teams Sports Information Directors would call this type of publication a “Press Guide”. I started this project in the early 2000’s as a cumulative effort to provide information for “talking points” during video / audio broadcasts of Minneapolis High School Basketball games for which I in for 21 seasons. In other words, this was initially an effort to satisfy such questions such as “how did what we just see compare to what has occurred in the past”?

There is no claim that this document is an exhaustive compilation of statistics, but it probably is the most extensive available for the girls basketball program at Minneapolis High School. Data included has been gleaned from The *MINNEAPOLIS MESSENGER*, the *SALINA JOURNAL*, other area newspapers, School Annuals and publications, statistics provided by team coaches, and some by video evidence in local broadcasts. It in no way is touted to be an infallible document, but a statement of what I believe is the best information available based on what has been published and seen by this researcher. Many times I have thought of publishing this information for the enjoyment of others, but experience has taught me that the printing and reproduction costs for such an effort on a small scale, are almost prohibitive. Thus a publication through a website became an attractive idea.

The author’s intent on releasing this information to the public via the website – “Minneapolis Kansas Sports Hall of Fame” is to share it for the enjoyment of MHS sports fans and current and former team athletes. Memories sometimes fade, but published statistics don’t. However these published statistics are sometimes lost in archives or become overlooked. This publication is an intent to help keep fresh those memories and help those statistics remain known and relevant for those who care.

My intent is to update this document periodically to include new team/individual performance data and the additions from further research. If anyone has information of interest that could possibly be added to this total document, please contact me by FaceBook *Messenger* or at my personal e-mail – dleech@eaglecom.net

My apologies to those who read this document who are trained historians. I don’t reference historical sources in this document other than what you see above. I determined that this effort alone would be too extensive. I do have the sources referenced in my files should someone care to question the validity of any information presented here-in.

Some last thoughts: the statistics shown here-in show the “the best of times” and the “worst of times” and many points in between. Some teams have been blessed with more skilled athletes than others, larger squad numbers than others, perhaps better coaches than others, and sometimes just better luck than others, especially in the injury department. Nonetheless, the efforts of all student athletes who currently participate or those who have in the past participated are deeply appreciated. We thank you for your dedication and participation in sports at Minneapolis High School.

Please forgive any typos and other errors that you find in this 2023 publication. If anyone finds any, it won’t offend me if you point them out to me.

GO LADY LIONS!

TABLE OF CONTENTS for the 2023 EDITION of MHS Girls Basketball Statistics

GIRLS BASKETBALL at MINNEAPOLIS HIGH SCHOOL – A BRIEF HISTORY

By Dale Leech

The sport of basketball for girls and women began in the 1890's after the game's invention by Dr. Naismith, mostly in an intramural setting as the "Victorian" era began to give way. The first girl's game between two college teams was played behind locked doors with no observers allowed. Stories in publications indicate that many were concerned about members of the female gender participating in sports such as basketball as being "unladylike" and there were concerns about the physical safety of the girls/women. Because of this early rules prohibited rough and aggressive play. The court was divided into at least 3 sections with players being restricted to each section (up to 11 players per team on the court). Early on, the ball couldn't be dribbled and had to be passed or shot within 4 seconds.

At MHS, girls began playing intramural basketball at a time that the boys took up football in the very early 1900s. The first basketball game against another school's team took place on 2/17/1905 versus Glasco, when the boys also played their first game. No mention of the results of the girl's game was mentioned in Minneapolis newspapers. Mention of girls games occurred for the 1909/10 & 1910/11 seasons and reporting of such events began again in 1919/20 and continued through the 1933/34 seasons after which it appears that girls athletics ceased at MHS until 1970.

In Kansas, Girls Basketball teams began playing in state tournaments along with boys teams in 1909 and continued through 1921. In 1922, the KHSAA (forerunner to the KSHSAA) voted to eliminate Girls basketball from all District and State Tournaments, apparently at the urging of the Deans of Women in High Schools and Colleges. This was a nationwide trend for both high schools and colleges. After the early 1930's women's competitive sport continued primarily only through American Amateur Athletic (AAU) events.

In 1971, the AAU rules for women's basketball were changed to include 5 player teams, full court guarding, and a 30 second clock. With the official passage of Title IX Federal Legislation in 1972, women's athletics in schools began changing nationwide. No longer were high school girls restricted to cheer leading and memberships in Pep Clubs for support of boy's athletics events.

At MHS, Girls outdoor Track & Field began in 1968 with no availability to participate in any KSHSAA sponsored championships. The KSHSAA started sponsoring Girls championships in 1971 with Volleyball, followed by Outdoor Track & Field in 1972, and then Girls basketball in 1973. Girls basketball at MHS began again with the 1974/75 season and has been played continuously ever since. The first team was coached by Nick Dolloff and 27 girls participated. Their first win was in their first game vs. Lincoln on the road, a 27-25 squeaker. It was the first game for both schools. This squad went on to post a season record of 7 wins vs. 4 losses with no league participation, but played 2 games in the Regionals Tournament. League participation began in 1975/76 season in the Northern Kansas League (NKL).

To date in this "modern" era of Girls basketball of MHS in 49 seasons, MHS Girls basketball has a career total of 543 wins in 1043 total games for a winning % of 52.5. In overall league competition they have 263 wins in 524 games for a winning % of 52.2.

In KSHSAA sponsored tournaments MHS has won 42 of 93 games for a winning % of 45.2, and has won 4 championships, finished 2nd 6 times, and 3rd place 1 time.

In non-KSHSAA sponsored tournaments MHS has won 114 of 253 games for a winning % of 45.1, and has won 15 championships, finished 2nd 16 times, and 3rd place 15 times.

MHS Girls basketball has participated in 4 leagues, the NKL, NCAA, CKL and the 2nd NCAA.

KSHSAA competition levels for MHS Girls basketball has been in classes "AA", "AAAA" & "AAA"

The Girls squads have won 6 League Championships during this 49 year history. They have advanced to State Tournaments four times. In three of these appearances in state tournaments, the Lady Lions have advanced to play in the "Final Four", and advanced to the Championship game once.

The MHS Girls program hosted an annual Mid-Season Classic Tournament from the 1976-77 seasons through the 2005/06 seasons, winning 3 titles.

Two MHS girls have been selected to play in the annual KBCA All-Star game. Kristi Shupe in 1996 and Jordan Crosson in 2007.
