

Anne Marcellis will present and demonstrate "Everything you never knew about 9 degree rulers".

Make simple strip stratas and cut them with a 9 degree ruler. Then watch the magic begin. No seams to match, no curves to cut, but AMAZING results! Use prints with prints or solids or combinations – anything goes here. Do not be intimidated by how this looks finished. Anne often gets a common reaction: "It would be too hard for me to make". But it's not and students are always amazed when they make this quilt. It's magically fun!
