

FOR SALE: 2005 Mazda RX-8 \$8500.00

Cherry Red Custom Body RX-8

CLR Motorsports Built

Cherry red custom body RX-8 hand built in 2014 by the talented engineers at CLR Motorsports and Miami GTR. Over \$15,000 invested in the body work, engine work, intake, exhaust, interior, and wheels! At \$8500 you are basically buying the parts and getting the car for free.

This amazing machine was built from a stock 2005 Mazda RX-8 and has less than 1000 miles on the race spec renesis 13B motor that was built with taller apex seals for long life and durability, the water jacket was modified to provide enhanced cooling where needed at the combustion area of the rotor housings.

This RX-8 looks, sounds and drives like a supercar. It is normally aspirated and has quality AEM cold air intake with racing beat headers, turbo XS exhaust that gives it a deep roar when on the throttle yet it idles smoothly and revs flawlessly to the 9000 RPM redline.

The exterior has a an aftermarket custom fiberglass front bumper that is not only aggressive but also functional with larger vents and a port to cool the intake pipe that flows to the throttle bodies.

What sets this RX-8 apart from the rest of the crowd is the attention to detail that went into the build, from the painstaking engine assembly to the matching of performance components and aftermarket wheels and body parts that ad form and function.

The one year bumper to bumper warranty that CLR Motorsports provides on this car means you will have trouble free enjoyment of this rotary rocket and should anything go wrong you will have a shop that has been in business for thirty (30) years there to back you up and fix the problem free of charge.

18 MPG in the city and closer to 23 with highway driving... all are 'fun' miles!

The car has been garage kept for a lot of it's years and also been maintained with regular washes, waxes and all maintenance. Besides the new motor it has new spark plugs coils, NGK wires, battery, brakes, stage 1 performance clutch.

The tires are in really good, almost new condition: 19" . The rims/wheels are a thing of beauty but do have some minor curb wear on them. Between the wipers and tires you will be good through rainy season and have the tread to drive for many more miles before needing to replace them. The alignment was also recently done after the electric power steering was replaced.

For those who don't know the car was rated a Car and Driver 10 Best:

<http://www.caranddriver.com/features/best-cars-for-20k-feature-2004-2008-mazda-rx-8-page-6>.

It's a sleek blend of racing enthusiasm and practicality. With hidden suicide doors it veils four doors making it easier to transport adults and kids alike. There is all safety, including top-notch ABS, air bags and car seat support. The 238 HP engine roars and soars to 9000 RPMs like it's no body's business. This

slick six, has a great feel and ride. The agility and handling is second to none in a Japanese car and at this price. It was featured drifting in the Fast and the Furious movie, Tokyo Drift.

Now on to the features and other specs:
