New Berlin Hills Golf Course

13175 Graham Street New Berlin, Wisconsin

Levi was diagnosed with Sanfilippo Syndrome / MPSIII type C in 2009, at the age of 10 years old. Sanfilippo Syndrome is a **rare**, fatal genetic disease with a life expectancy between 10-20 years old. Over time, children experience a neurological decline and lose their ability to walk, talk and eat on their own. It causes problems with speech, respiratory system, organs & joints. There is no cure or treatment at this time, but we have **HOPE for a CURE!** Our mission in life is to spread awareness by sharing **Levi's story** as he battles this debilitating disease. We want to find a treatment for Levi and other affected children. Levi is a happy 18 year old who loves life. The thought of watching him decline from the energetic, upbeat giggly teenager he is keeps us motivated... And **HOPEful** that someday we will find a cure. You can read Levi's Story on his website at [www.levislifelovelaughter.org](http://www.levislifelovelaughter.org)

We are teamed up with Jonah's Just Begun, a Foundation working to save our children. You can make a tax deductible donation to Jonah's Just Begun to help aid in medical research to find a cure in honor of Levi.

**Proceeds from the event will benefit  
Levi's Trust Fund &  
Jonah's Just Begun Foundation**
