## CHAIR'S CORNER

by David McGan

After the summer off (at least for all but the Section Leadership Team), we're excited that Section 0915 is ready to kick off its 2016-2017 Section dinner meeting season on September 13<sup>th</sup>. We'll be meeting at the Miller House, an up-scale dining establishment in Owensboro, KY (see newsletter for directions).

**Technical Presentation** -- Willy Zech will be speaking on *Monte Carlo techniques*. What is that, you say? According to Wikipedia, *Monte Carlo method is a technique that can be used to solve a mathematical or statistical problem, and a Monte Carlo simulation uses repeated sampling to determine the properties of some phenomenon (or behavior)*. So, if you're looking to add another component to your problem-solving arsenal, this presentation is for you!

**It's Back** -- the popular series of 5-minute "Best Practices" talks will continue, preceding the dinner. This time, Brian Wilson will be speaking on "*Best Practices of a Containment Process*."

**Leadership Team Meeting** -- last but not least, the Section Leadership Team will be trying something different, as **we are scheduling our monthly Section Leadership Team meeting (aka Board Meeting) to take place immediately following the evening program**. If you have been interested in, or considering being involved in, Leadership Team activities, you're more than welcome to stick around and participate in this meeting. It should take no longer than 30 minutes, and you'll have a better understanding of Section Leadership activities.

**Leadership Volunteers** -- **We're still needing volunteers for Leadership positions for 2017** -- Your Section needs you! We need to start identifying those who might serve on our Leadership team for 2017, as we need to have nominations in place for our October 2016 meeting. Remember, this is a great way to get more involved in our Section, **and earn additional RU's**. If interested, contact Brian Wilson, our current Nominations Chair, myself, or any member of the current Leadership team (contact info listed in the newsletter).

So, as you can see, there's a lot of exciting things going on – and even more planned for the upcoming season of meetings. We look forward to your attendance and participation.

## Quick Links:

The section has initiated a new newsletter topic. This addition will consist of several internet links for topics that may be of interest.

As a result of the expanding internet, many interesting articles are available but we each don't have the time to do replicate searching. As each of you find interesting articles and such, forward the internet link to me. As I get these links, I will include several in the newsletter.

Note: Jim Bakke has identified a Harvard Business Review that is just fit for us in the quality field. Check out the attachment in the email notice.
