## Program Description

During this program, the students will spend one semester in a design and layout lab. Their studies will include line drawing, design drawing, layout, paste-up, typesetting and photography. They will also be involved in the production lab which will include binding, silk screen printing, offset printing, press operations, block printing and plate making.

The program will also involve students in contact printing, dark-room activities, layout, design work, multiple color operations, digital photography, photo editing, web page design, and digital video.

## Special Features

---

*Students will be exposed to current industry trends in the area of graphic communications.*

*Leadership and work-based learning opportunities available.*

---

#### STATEMENT OF COMPLIANCE

The Downriver Career Technical Consortium complies with all federal laws and regulations of the U.S. Department of Education. It is the policy of the Downriver Career Technical Consortium that no person on the basis of race, color, religion, national origin or ancestry, age, gender, marital status, disability or limited English proficiency shall be discriminated against or excluded from participation in any program or activity to which it is responsible or for which it receives financial assistance from the U.S. Department of Education. Furthermore, the consortium will encourage participation by all of the above.

Adopted by the Downriver Career Technical Consortium
