

CIP Committee Report

Testimony Workshop

We shared common themes, and found the over-arching theme of having a safe, comfortable environment for all children to learn. We discussed strategy when advocating, and how data is gathered for the CIP. About 25 people attended.

BOE Testimony

All clusters testified. An extra day was added, which allowed feedback for the new RM #5 ES Boundaries. The extra day of testimony allowed more individuals to comment than in previous years.

MCCPTA/State Delegation Mixer

This event offered an opportunity to talk about how Montgomery County can get more funds from the state. We talked about more help for our aging infrastructure along with the continued funds we are receiving for capacity. MCPS representative Patricia Swanson attended to discuss MCPS strategy in acquiring needed funds.

Questionnaires

We are crafting questions for county council, county executive, and BOE candidates to find out their positions on CIP issues.
