12.5" x 12.5"

Make any quilt block you want to coordinate with my fabric. The image of the fabric will be online and is from the curtain in my room.

<http://www.rpqg.org/block-for-a-friend.html>

The walls are another odd shade of blue that is a bit darker and tones in. Please keep in mind I don't want it to 'pop'. I like soothing. I don't need any of the brown/black to be in it, definitely no black.

I would call that a bright dark blue leaning towards ....?  
Maybe another color is red violet medium to light version?  
2 greens; a medium green leaning to blue a bit, and a medium green leaning to grass maybe *a pale blue could also be added*

Thank you! I can't wait to see what you come up with.
