## UPCOMING MOVIE RELEASE

### Logan

In 2029 the mutant population has shrunk significantly and the X-Men have disbanded. Logan, whose power to self-heal is dwindling, has surrendered himself to alcohol and now earns a living as a chauffeur. He takes care of the ailing old Professor X whom he keeps hidden away. One day, a female stranger asks Logan to drive a girl named Laura to the Canadian border. At first he refuses, but the Professor has been waiting for a long time for her to appear. Laura possesses an extraordinary fighting prowess and is in many ways like Wolverine. She is pursued by sinister figures working for a powerful corporation; this is because her DNA contains the secret that connects her to Logan. A relentless pursuit begins - In this third cinematic outing featuring the Marvel comic book character Wolverine we see the superheroes beset by everyday problems. They are aging, ailing and struggling to survive financially.

A decrepit Logan is forced to ask himself if he can or even wants to put his remaining powers to good use. It would appear that in the near-future, the times in which they were able to put the world to rights with razor sharp claws and telepathic powers are now over.

## UPCOMING ADULT NON-FICTION

### DAVID SEDARIS THEFT BY FINDING DIARIES 1977-2002

#### Theft by Finding

by David Sedaris

It's no coincidence that the world's best writers tend to keep diaries. If you faithfully record your life in a journal, you're writing every day--and if you write every day, you become a better writer. David Sedaris has kept a diary for forty years. This means that if you've kept a diary for a year of your life or less, Sedaris is at least forty times better at writing than you are. In his diaries, he's recorded everything that has captured his attention--overheard comments, salacious gossip, soap opera plot twists, secrets confided by total strangers. These observations are the source code for his finest work, and with them he has honed his self-deprecation and learned to craft his cunning, surprising sentences. Now, for the first time, Sedaris shares his private writings with the world in *Theft By Finding: Diaries 1977-2002*. This is the first-person account of how a drug-abusing dropout with a weakness for the International House of Pancakes and a chronic inability to hold down a real job

became one of the funniest people on the planet. Most diaries -- even the diaries of great writers -- are impossibly dull, because they generally write about their emotions, or their dreams, or their interior life. Sedaris's diaries are unique because they face outward. He doesn't tell us his feelings about the world, he shows us the world instead, and in so doing he shows us something deeper about himself. Written with a sharp eye and ear for the bizarre, the beautiful, and the uncomfortable, and with a generosity of spirit that even a misanthropic sense of humor can't fully disguise, *Theft By Finding* proves that Sedaris is one of our great modern observers. It's a potent reminder that there's no such thing as a boring day--when you're as perceptive and curious as Sedaris, adventure waits around every corner.

### You Will Pay

by Lisa Jackson

In a fast-paced, brilliantly twisted novel of suspense from #1 New York Times bestselling author Lisa Jackson, the deadly secrets of a long-ago summer stir to life once more. It starts as a prank a way to blow off steam after a long summer at Camp Horseshoe. Among the teen counselors, tensions and hormones are running high. No wonder the others agree when Jo-Beth Chancellor suggests they scare Monica O Neal a little .or a lot. Monica has it coming, and no one will really get hurt. What could go wrong? Everything. Twenty years later, Lucas Dalton, a senior detective with the sheriff's department, is investigating the discovery of human remains in a cavern at what used to be Camp Horseshoe. Lucas knows the spot well. His father, a preacher, ran the camp, and Lucas worked there that infamous summer when two girls went missing. One is believed to have been killed by a convict on the loose. Monica O Neal is thought to have drowned and been washed out to sea. Lucas knows he should step down from such a personal case. He's already jeopardized his career by removing evidence of his involvement. But maybe it's time to uncover the whole truth at last. That's why five former female counselors are coming back to the small Oregon town among them, Bernadette Warden, the woman Lucas has never forgotten. Each one knows something about that terrible night. Each promised not to tell. And as they reunite, a new horror unfolds. First come notes containing a personal memento and a simple, terrifying message: *You will pay*. Then, the murders begin. It started years ago. But it will end here as a web of lust, greed, and betrayal is untangled to reveal a killer waiting to enact the perfect revenge.

## UPCOMING BEGINNER FICTION

### Short Stories for Little Monsters

by Marie-Louise Gay

Nineteen short stories explore some enormously funny ideas.

Ideas are big and things are often more than they seem in each of these brief vignettes, which are divided like chapters. One story shows snails having anxious nightmares about going too fast; another has a mother who foils her children's bedtime games with her ability to see through ceilings; and still another explores the secret life of rabbits as they enjoy a whimsical subterranean wonderland. Although the diverse cast of characters seems to occasionally appear across multiple narratives, each of the stories is separate and self-contained, allowing readers to decide if and how the snapshot vignettes might be connected.

Nearly all of the stories are paneled, employ speech bubbles, and are presented in sweeping double-page spreads, providing an early primer for readers working their way toward graphic novels, as the author's frenetic, childlike illustrations and deceptively simple narratives each hit with a potent humor just this side of nonsense. Readers searching for an anchor of plot among the playful absurdity may find themselves a little disoriented, but fans of Louis Sachar's *Wayside School* stories and Shel Silverstein's repertoire of

drawings will delight as this picture book joins their ranks.

## JUNIOR ADULT UPCOMING ARRIVAL

### Miss Ellicott's School for the Magically Minded

by Sage Blackwood

From the author of the acclaimed *Jinx* trilogy comes a spellbinding fantasy, perfect for fans of the *School for Good and Evil* series, about a young heroine fighting to save a world that would dare to tame her.

Chantel would much rather focus on her magic than on curtsying, which is why she often finds herself in trouble at Miss Ellicott's School for Magical Maidens. But when Miss Ellicott mysteriously disappears along with all the other sorceresses in the city, Chantel's behavior becomes the least of her problems.

Without any magic protecting the city, it is up to Chantel and her friends to save the Kingdom. On a dangerous mission, Chantel will discover a crossbow-wielding boy, a dragon, and a new, fiery magic that burns inside her—but can she find the sorceresses and transform Lightning Pass into the city it was meant to be?
