Start with Medicare basics

Make sure this plan is a good fit by reviewing the basics.

You're enrolled in Original Medicare, what's next?

Original Medicare is provided by the government and covers some of the costs of hospital stays (Part A) and doctor visits (Part B), but doesn't cover everything. You don't get coverage for prescription drugs or routine vision, dental or hearing care. Depending on your needs, you may want to add on more coverage. When it comes to extra coverage, you have options.

Original Medicare

Provided by the federal government

PART A  Helps pay for hospital stays and inpatient care

PART B  Helps pay for doctor visits and outpatient care

Your options for more coverage:

OR

OPTION 2

Add one or both of the following to Original Medicare:

Medicare Made Clear™ brought to you by UnitedHealthcare®

Start with Medicare basics

This is a Medicare Advantage Part C Health Maintenance Organization (HMO) plan.

Your plan is a Health Maintenance Organization (HMO) plan. That means you need to get health care services through a network of local doctors and hospitals.

Here's how your HMO plan works.

You will need to select a primary care provider (PCP).

This health plan requires you to select a PCP from the network. Your PCP will oversee and help manage your care.

You will need to get a referral to see a specialist.

In most cases, your network PCP will need to give you a referral to visit other network providers, such as specialists and hospitals.

There's an out-of-pocket spending limit each plan year.

Once you reach that limit, the plan pays 100% of the costs for covered services.

Stay in the network.

The chart below shows how costs can change using network versus out-of-network resources.

	Network	Out-of-Network
Will the doctor or hospital accept my plan?	Yes	No
Are emergency or urgently needed services covered?	Yes	Yes
What will I pay for covered services?	You pay your plan copay or coinsurance.	In most cases, you will have to pay the full cost for services.

Plan copay and coinsurance apply. As a member, you will receive a Provider Directory listing all network providers and facilities within your plan. You can also find a complete listing on our website. Please refer to the Summary of Benefits and Benefit Highlights for more complete plan information.

Start with Medicare basics

Are you eligible for this plan?

You are eligible for a Medicare Advantage plan if:

You are enrolled in Original Medicare Parts A and B and live in the plan's service area

AND

You do not have end-stage renal disease.

Are there special eligibility requirements for this plan?

No, as long as you are enrolled in Original Medicare Parts A and B and continue to pay your Part B premium, you are eligible to enroll in this plan.

Your drug plan coverage and costs

Make sure your drugs are covered.

Find out if your prescription drugs are covered by checking the Drug List in this Enrollment Guide or the online Formulary at [EstimateDrugCostsAARP.com](https://www.estimateDrugCostsAARP.com).

Know how much your drugs will cost.

The cost of your drug depends on 3 things: what tier the drug is covered in, where you are within the drug payment stages and where you purchase the drug.

Understanding drug tiers.

Many plans group covered drugs together by cost. These groupings are called tiers. Generally, the lower the tier, the less you'll have to pay.

Formulary (Drug List) Tiers				
Tier 1 Preferred Generic	Tier 2 Generic	Tier 3 Preferred Brand	Tier 4 Non-Preferred Drug	Tier 5 Specialty Tier

Note: Not all generic drugs are low cost. There are generic drugs in each tier. Check the drug list for the tier of your specific generic drug.

Your Part D prescription drug costs.

With Medicare Part D prescription drug coverage, the amount you pay for prescriptions may change over the year. Here's why:

- Part D plans may have 4 coverage stages: annual deductible, initial coverage, coverage gap (also known as the donut hole) and catastrophic coverage.
- The amount of money you pay changes depending on the stage you are in.
- Many people never make it further than the initial coverage stage during the plan year. If you take a lot of medications, especially high-cost medications, you may move into the next stages.
- The pharmaceutical industry may increase the price of drugs at any time in a plan year and pricing for drugs may vary across pharmacies in the network.
- The coverage cycle starts over again on January 1 each plan year.

Once you're a member, you can easily track how close you are getting to the coverage gap stage by signing in to your account online.

Your drug plan coverage and costs

Explore ways to save money.

✓ Try OptumRx® Mail Service Pharmacy.

You could pay a \$0 copay for a 90-day supply of Tier 1 and 2 medications by using home delivery from OptumRx, our preferred mail service pharmacy.

OptumRx will send the prescriptions you take regularly right to your door with no cost for standard shipping. Register online at **OptumRx.com** to order new prescriptions, request refills and more.

✓ Consider generic drugs.

Many commonly used prescription drugs have a generic form. Ask your doctor if your drugs are available as generics and if they would be appropriate for you. Then search for the generic versions at **EstimateDrugCostsAARP.com** to determine your potential savings.

✓ Use lower-tier drugs.

Prescription drugs are grouped into 5 tiers. If your drug is in a higher, more expensive tier, ask your doctor if there is a lower-tier drug that could work for you.

✓ Get Extra Help.

If you have a limited income, you may be able to get Extra Help with your Medicare prescription drug plan premiums, deductibles and copays. To find out if you qualify, call the Social Security Administration at **1-800-772-1213**, TTY **1-800-325-0778**, 7 a.m. – 7 p.m., Monday – Friday.

2018 Medicare Star Ratings*

The Medicare Program rates all health and prescription drug plans each year, based on a plan's quality and performance. Medicare Star Ratings help you know how good a job our plan is doing. You can use these Star Ratings to compare our plan's performance to other plans. The two main types of Star Ratings are:

1. An Overall Star Rating that combines all of our plan's scores.
2. Summary Star Rating that focuses on our medical or our prescription drug services.

Some of the areas Medicare reviews for these ratings include:

- How our members rate our plan's services and care;
- How well our doctors detect illnesses and keep members healthy;
- How well our plan helps our members use recommended and safe prescription medications.

For 2018, UnitedHealthcare received the following Overall Star Rating from Medicare.

★★★★★
4.5 stars

We received the following Summary Star Rating for UnitedHealthcare's health/drug plan services:

Health Plan Services: ★★★★★
4 stars

Drug Plan Services: ★★★★★
5 stars

The number of stars shows how well our plan performs.

★★★★★	5 stars - excellent
★★★★	4 stars - above average
★★★	3 stars - average
★★	2 stars - below average
★	1 star - poor

Drug list

2018 Drug list

This is a partial alphabetical list of prescription drugs covered by the plan. This is not a complete list of the drugs we cover. For a more up-to-date list, call or visit us online. Our contact information is on the 3rd page of this book.

- **Brand name** drugs are in **bold** type. Generic drugs are in plain type
- Each covered drug is in 1 of 5 cost-sharing tiers
- Drug tier description:
 - Tier 1: Preferred generic
 - Tier 2: Generic
 - Tier 3: Preferred brand
 - Tier 4: Non-preferred drug
 - Tier 5: Specialty tier
- Your plan may have an annual prescription deductible
- For more cost-sharing and deductible information, see the Summary of Benefits in this book
- Some drugs may need Prior Authorization, Step Therapy or other coverage requirements

PA Prior authorization	The plan requires you or your doctor to get prior approval for certain drugs. This means the plan needs more information from your doctor to make sure the drug is being used correctly for a medical condition covered by Medicare. If you don't get approval, the plan may not cover the drug.
QL Quantity limits	The plan will cover only a certain amount of this drug for 1 copay or over a certain number of days. These limits may be in place to ensure safe and effective use of the drug. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.
ST Step therapy	There may be effective, lower-cost drugs that treat the same medical condition as this drug. You may be required to try 1 or more of these other drugs before the plan will cover your drug. If you have already tried other drugs or your doctor thinks they are not right for you, you or your doctor can ask the plan to cover this drug.
B/D Medicare Part B or Part D	Depending on how this drug is used, it may be covered by either Medicare Part B (doctor and outpatient health care) or Medicare Part D (prescription drugs). Your doctor may need to provide the plan with more information about how this drug will be used to make sure it's correctly covered by Medicare.
LA Limited access	Drugs are considered "limited access" if the FDA says the drug can be given out only by certain facilities or doctors. These drugs may require extra handling, provider coordination or patient education that can't be done at a network pharmacy.

**MED
Morphine
equivalent dose**

Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional edit is called a cumulative morphine equivalent dose (MED). The MED is calculated based on the number of opioid drugs prescribed for you over a period of time. This cumulative limit is required for all plans and is designed to monitor safe dosing levels of opioids for those individuals who may be taking more than 1 opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.

Stand-alone Medicare Prescription Drug Plans (Part D)

Medicare Prescription Drug Plan (PDP) — A stand-alone drug plan that adds prescription drug coverage to Original Medicare, some Medicare Cost Plans, some Medicare Private Fee-For-Service Plans, and Medicare Medical Savings Account Plans.

Medicare Advantage Plans (Part C) and Cost Plans

Medicare Health Maintenance Organization (HMO) — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. In most HMOs, you can only get your care from doctors or hospitals in the plan's network (except in emergencies).

Medicare HMO Point-of-Service (HMO-POS) Plans — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. HMO-POS plans may allow you to get some services out of network for a higher copayment or coinsurance.

Medicare Preferred Provider Organization (PPO) Plan — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. PPOs have network doctors, providers and hospitals but you can also use out-of-network providers, usually at a higher cost.

Medicare Private Fee-For-Service (PFFS) Plan — A Medicare Advantage Plan in which you may go to any Medicare-approved doctor, hospital and provider that accepts the plan's payment, terms and conditions and agrees to treat you — not all providers will. If you join a PFFS Plan that has a network, you can see any of the network providers who have agreed to always treat plan members. You will usually pay more to see out-of-network providers.

Medicare Special Needs Plan (SNP) — A Medicare Advantage Plan that has a benefit package designed for people with special health care needs. Examples of the specific groups served include people who have both Medicare and Medicaid, people who reside in nursing homes, and people who have certain chronic medical conditions.

Medicare Medical Savings Account (MSA) Plan — MSA Plans combine a high deductible health plan with a bank account. The plan deposits money from Medicare into the account. You can use it to pay your medical expenses until your deductible is met.

Medicare Cost Plan — In a Medicare Cost Plan, you can go to providers both in and out of network. If you get services outside of the plan's network, your Medicare-covered services will be paid for under Original Medicare but you will be responsible for Medicare coinsurance and deductibles.

Other Related Products

Dental/Vision/Hearing Products — Plans offering additional benefits for consumers who are looking to cover needs for dental, vision, or hearing. These plans are not affiliated or connected to Medicare.

Hospital Indemnity Products — Plans offering additional benefits; payable to consumers based upon their medical utilization; sometimes used to defray co-pays/co-insurance. These plans are not affiliated or connected to Medicare.

Medicare Supplement (Medigap) Products — Insurance plans that help pay some of the out-of-pocket costs not paid by Original Medicare (Parts A and B) such as deductibles and co-insurance amounts for Medicare approved services.

Plans are insured through UnitedHealthcare Insurance Company or one of its affiliated companies, a Medicare Advantage organization with a Medicare contract and a Medicare-approved Part D sponsor. Enrollment in these plans depends on the plan's contract renewal with Medicare.

Examples of the specific groups served include people who have both Medicare and Medicaid, people who reside in nursing homes, and people who have certain chronic medical conditions.

Medicare Medical Savings Account (MSA) Plan — MSA Plans combine a high deductible health plan with a bank account. The plan deposits money from Medicare into the account. You can use it to pay your medical expenses until your deductible is met.

Medicare Cost Plan — In a Medicare Cost Plan, you can go to providers both in and out of network. If you get services outside of the plan's network, your Medicare-covered services will be paid for under Original Medicare but you will be responsible for Medicare coinsurance and deductibles.

Other Related Products

Dental/Vision/Hearing Products — Plans offering additional benefits for consumers who are looking to cover needs for dental, vision, or hearing. These plans are not affiliated or connected to Medicare.

Hospital Indemnity Products — Plans offering additional benefits; payable to consumers based upon their medical utilization; sometimes used to defray co-pays/co-insurance. These plans are not affiliated or connected to Medicare.

Medicare Supplement (Medigap) Products — Insurance plans that help pay some of the out-of-pocket costs not paid by Original Medicare (Parts A and B) such as deductibles and co-insurance amounts for Medicare approved services.

Plans are insured through UnitedHealthcare Insurance Company or one of its affiliated companies, a Medicare Advantage organization with a Medicare contract and a Medicare-approved Part D sponsor. Enrollment in these plans depends on the plan's contract renewal with Medicare.

Need help with your prescription drug costs?

If you have a limited income, you may be able to get Extra Help with your prescription drug costs. If you qualify, Medicare could pay for 75% or more of your costs, including monthly prescription drug premiums, annual deductibles, and coinsurance. If you qualify for Extra Help with your Medicare prescription drug coverage costs, Medicare will pay all or part of your plan premium. The EOC will list services the plan covers, as well as the plan's terms and conditions. The plan will cover services it approves, as well as services listed in the EOC. If a service isn't listed in the EOC or approved by the plan, Medicare and the plan won't pay for it. If I disagree with how the plan covers my care, I have the right to make an appeal.
- I understand that I must get my health care coverage from doctors or providers that are in my plan's network. I can go to any doctor or hospital in an emergency or for urgently needed services or out-of-area dialysis services.
