

*Tricia Singh had aspired to be a salon owner since she attended cosmetology school in 1995. She dreamed of opening a salon that fostered to the stylists creativity and not only encouraged, but provided, an inside track for continued education. She understands what customer service is, and does it with a smile! She knows the importance of supporting her community and because of this, Hair & Co carries locally grown and produced farm fresh items such as maple syrup, raw local honey, soaps and candles. We also display local artists' work. She believes in this.*

*Tricia specializes in razor cutting, texturizing, and highlighting long hair. Every client that sits in Tricia's chair receives his or her own, unique service and style. Trish believes in the statement, "healthy hair is beautiful hair" and does her very best to have every person walk out with beautiful hair.*
