

LEED POINTS

LEED NC Credit MRc4	1 – 2 Points	Percentage by weight of post consumer content (LEED points will vary by system thickness and color ratios.)
LEED NC Credit MRc5	1 – 2 points	Regionally harvested and manufactured – this would refer to the recycled tire material used in our cushion layer. Points valid when project is located within 500 miles of our Southern California location.
LEED NC Credit MRc5.1	1 point	Regional Materials 10% extracted, processed & manufactured regionally
LEED NC Credit MRc5.2	1 point	Regional Materials 20% extracted, processed & manufactured regionally
LEED NC Credit SSc5.2	1 point	System is a pervious surface.
LEED IEQ Credit 4.1	1 point	Low VOC adhesives (credit is applicable when project is located indoors)
LEED WE Credit 1.1	1 point	Water efficient landscaping. Reduce by 50%.
LEED WE Credit 1.1	1 point	Water efficient landscaping. No potable water use or no irrigation
LEED MR Credit 1.2	1 point	Construction Waste Management. Divert 50% from disposal.
LEED MR Credit 2.2	1 point	Construction Waste Management. Divert 75% from disposal.
LEED MR Credit 3.1	1 point	Materials re-use, 5%.
LEED MR Credit 3.2	1 point	Materials re-use, 10%.
LEED MR Credit 4.1	1 point	Recycled content, 10% (post-consumer + ½ pre-consumer)
LEED MR Credit 4.2	1 point	Recycled content, 20% (post-consumer + ½ pre-consumer)
