

Portable Gas Detection Equipment and Service

- Products for Confined Space Entry and Industrial Safety
- Smallest 4-Gas & 5-Gas Monitors in the Industry
- Maintenance-Free Single-Gas Monitors
- 6-Gas Monitors, PID Sensors
- Convenient Calibration and Data Logging Systems
- Service, Calibration and Rental Programs

Paramount Gas Products sells and services a wide variety of industry-leading portable, personal gas monitors. Access to a range of products enables us to help you find the right monitors for your application.

First, we listen to the factors that are important to you like ease of use, cost of ownership, maintenance requirements, etc. Then we develop options to suit your needs.

Common Gases Detected

Confined Space Entry: Flammables, O₂, CO, H₂S

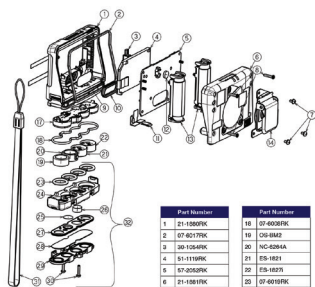

Additional Gases: AsH₃, CO₂, Cl₂, H₂, HCL, HCN, NH₃, NO₂, PH₃, SO₂, Volatile Organic Compounds (VOCs)

Don't see the gas you need? Don't worry. We have solutions for other gases, as well.

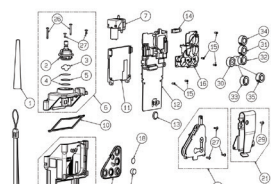

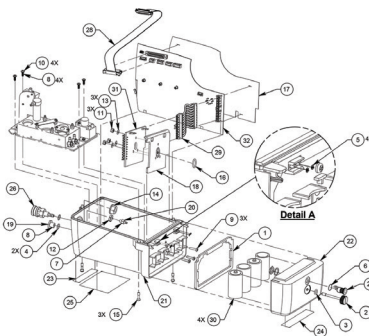

Gas Detection is Paramount ... **PARAMOUNT** *is Gas Detection.*

Service, Calibration and Rental Programs

Preventative Maintenance Service

Components of a Portable Gas Monitor like sensors, filters, pumps, and batteries need periodic service or replacement. Paramount Gas Products services gas monitors with annual PM Service Agreements or on an as needed basis. We can develop a custom plan to suit your needs.

Calibration

Calibration Services are available as part of PM Service Agreements or as a standalone service. If you typically handle your own calibration and bump testing, but need occasional 3rd-party calibrations, we can fulfill those requirements, as well.

Rental Program

Paramount Gas Products has a fleet of Portable Gas Monitors available for rent. These units are especially useful if your instruments are unavailable due to service work or if you have temporary activities that require the use of personal monitors. Some customers only use gas monitors occasionally and don't want the burden of purchasing and maintaining their own units. In these cases, we can develop a cost-effective rental solution.

Calibration Recommendations available at OSHA.gov

See Safety and Health Information Bulletin:

Calibrating and Testing Direct-Reading Portable Gas Monitors

Other Offerings from Paramount Gas Products

Fixed Gas Detection

- Products for Detection of Hazardous Atmospheres
- Applications range from a single gas in one location to a facility-wide detection system.
- Custom configured systems for your specific needs.
- Field Calibration Service and Training
- Preventative Maintenance Plans

Calibration Gases and Equipment

- Extended Gas Shelf Lives
- Refillable or Recyclable Cylinder Options
- Shelf-Life Tracking and Alerts
- Auto-Order Program
- Support Equipment including Regulators and Calibration Stations

Cryogenic Storage Equipment

- Products for Cryogenic Storage of Biological Materials
- Liquid Nitrogen Freezers
- LN2 Vapor Storage from -20 °C to -190 °C
- LN2 Storage Dewars
- Full Line of LN2 Accessories
