Skills and Capabilities

Fluent in all aspects of the field of Orthotics and Prosthetics. Consulting in the treatment of infants to adults with over 40 plus years of Orthotic and Prosthetic consults. Body and External powered upper and lower extremity prosthetics for all age groups.

John's career of 40 plus years has allowed him vast knowledge and experience in clinical practice, prosthetic and orthotic component development, design and manufacturing. He is considered to be an Expert in his field and continues to be asked to consult on Clinical 'Best Practices' by physicians, third party payors, peers and patient users on the most appropriate component utilization and outcome measurements. John is a published Author, Consultant and Clinical Board Examiner. He has treated and been involved with the treatment of persons of all ages with congenital birth defects, limb weakness and loss, spinal cord injury. He is intimately knowledgeable in prosthetic and orthotic clinical practice and management, component prescription recommendation, selection and utilization for all patient ages and levels of function makes him an excellent resource for you as an expert witness and consultant.

Mr. Schulte has particular expertise in the determination of the most appropriate prosthetic and orthotic component recommendation, utilization and failures due to improper manufacturing processes, prescription appropriateness, clinical applications and negligence directly related to limb weakness and loss as well as spinal cord injury and treatment. Wrongful Death investigation and determination, limb damage and loss in Diabetics as related to footwear and LifeCare plan consultation and preparation as related to Orthotics and Prosthetics.
