Education Assessment Scholastic Enhancement (EASE) Program

Preparing Students Today

For STEM Careers Tomorrow

EASE Discovers the Technical Health of Your Student and Prescribes Steps to Maximize the Probability of Success

STEM Learning

Science, Technology, Engineering, and Mathematics (STEM) refers to the academic disciplines and education policies and curriculum choices to improve competitiveness in science and technology development.

STEM has wide implications for preparing our current Students for the careers and development needed in the 21st Century workforce.

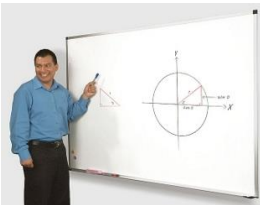

EASE Program Benefits

- ✓ Common Core Compliant
- ✓ State Current Standards (All States)
- ✓ Content Driven Material
- ✓ Intuitive and Easy to Use
- ✓ Online with No Software to Install

EASE PROVIDES K-12 STEM LEARNING

Virtual Whiteboard

Students (unlimited number) learn by logging in and receiving instructor led - focused classes on areas identified by the EASE Program

The EASE Program

The *Education Assessment Scholastic Enhancement (EASE) Program* is designed to complement the front-line classroom teacher and help each Student in the specific areas of needed instruction and STEM learning.

Step 1

Formative Assessment

A Pre-Assessment is given to the Student to understand their strengths and areas requiring additional focus.

Step 2

Learning Plan

An EASE individualized Student Learning Plan is developed to address key problem areas.

Step 3

Summative Assessment

A Post-Assessment is administered to the Student to measure improvement.

Access

Students: Assessments and Lesson Plans for focused learning

Teachers: All metrics for each Student and Class

Administrators: Student, Class, School, and District Levels

Parents: Monitor Student activity and progress

International Rankings - US

- 35th in Math
- 30th in Science
- 17th in Reading
