

# FACTA

FLORIDA ASSOCIATION OF COLLEGE TEST ADMINISTRATORS

Thank you for your support of Florida's College Test Administrators Association (FACTA). Having the support of our business partners significantly contributes to making FACTA a stronger entity. The Business Membership you are registering for or renewing will afford your company the opportunity to have access and visibility to the FACTA membership comprised of postsecondary public and private institutional employees that work directly or indirectly with test administration. Collaboration and cooperation between test administrators around the state is a primary function of the association. Also integral to the mission of the association is a close working relationship with the Florida Department of Education's Assessment Office, private testing agencies and other corporate members. We subscribe to the Professional Standards and Guidelines of the National College Test Association (NCTA).

## PURPOSE:

The purpose of the Association includes:

- enhance professional testing practices for testing administrators
- advance collaboration and cooperation among testing professionals, testing companies, and state policy-making agencies with regard to test administration, management and operation of college testing centers, analysis and review of testing instruments, and implementation of new testing initiatives
- provide support activities and technical assistance for information sharing, best practice resources, and program enhancement efforts
- provide opportunities for professional development and enhanced understanding of emerging issues and trends for Florida testing administrators
- serve as a professional resource and advocate in regard to matters relevant to college testing with state agencies and other affinity groups within Florida higher education

These purposes shall be achieved through the association's website <http://FACTAtesting.org> and FACTA-L (listserve), meetings, conferences, and other methods and programs determined by the FACTA Council.

Business memberships are open to any business, agency, or association involved in testing or related activities in the State of Florida. These memberships do not carry voting privileges and are not eligible to hold office. The annual fee for Business Membership is \$500.00.

Membership allows each member full access to the FACTA-L listserv, FACTA website recognition, and face to face access to testing professionals at three events per calendar year: Annual Conference (Winter), five Regional meetings (May), and Fall meeting (Oct). Our Business partners are featured in all our published materials, to include meeting programs and agendas. Although not required, our Business Members sometimes provide additional financial support to cover of meeting/meal expenses. Frequently, they are asked to deliver presentations in either large or small group format in our professional development activities.

**Please mail this form, the Membership Invoice on the last page, and your check for \$500.00 made payable to Florida Association of College Test Administrators, Treasurer, at the address on the invoice.**
