

No Plans

Guess the words defined by the clues below. The answers vary in length from 3 to 10 letters and 7 are capitalized, 2 are abbreviations, 1 is an alternate spelling, 1 is foreign and 1 is a prefix. Punctuation in the clues may or may not help the solver.

This puzzle consists of 3 connected grids of 44 squares each. As such, the grid clues are presented in 3 groups (called X, Y & Z) where each group is for one of the 3 grids. But it is the solvers responsibility to determine which group is for which grid. For each grouping, the first answer will start somewhere in the first row of the appropriate grid and then the other clues will be entered in order starting with the across entries. When you reach the rightmost square of a row, continue at the first square of the next row. When the bottom right corner is reached, the next letter will be in the top left and the words will proceed down the columns. The last few letters of the last down clue will fill in the top row as needed.

Finally, 1 letter from each grouping will need to be omitted to make everything fit. These 3 letters can be combined with the letters you'll need to put in the 4 unclued (grey) squares to make "NO PLANS". The 2 highlighted vertical strings will then give you 2 common 5 or 6 word phrases. What are they?
